

# AccuCab

RFID Point-of-Use Dispensing

## CribMaster AccuCab

Imagine your employees walk up to a cabinet that stores tooling, maintenance parts, kits or even hazmat materials. Like all of our CribMaster point-of-use devices, the employee is required to identify himself or herself. The door unlocks using an electromagnetic lock and inside are shelves that contain the items they need to complete their task. Each item is identified with a passive Gen2 RFID tag and when the item is removed, inventory is automatically adjusted and monitored through CribMaster.

The AccuCab is a great solution for managing kits at point-of-use, tracking the usage of durable items, or tracking maintenance items to work orders and tasks. The only additional step to employees is identifying who they are by a password on the touch screen or a barcode scan. No inventory to scan or transactions to log. Transactions are automatically recorded when inventory is removed from the cabinet.

### AccuCab Functions, Features, and Benefits:

- Simple "plug and play" self contained RFID device (COTS)
- Touch screen control allows for User ID log in
- Configurable shelving to accommodate different size items
- Total kit tracking and replenishment process tracking
- Lot number and expiration date tracking and notification
- Ability to remove an entire bin of items and retain high accuracy
- Durable 100% made in the USA 16 gauge steel construction
- Direct email or EDI communication with suppliers
- 190+ standard CribMaster reports with scheduling
- Custom report configurable with Crystal Reports
- Complete work order system and ability to track inventory to work orders
- Item reservation and predictive ordering
- Reduced misuse of inventory
- Improved inventory accuracy

**Dimensions:** Inside 75" Tall x 58" Wide x 32" Deep

Outside 78" Tall x 68" Wide x 34" Deep
