

CribMaster Scanners

Cordless Crib Management

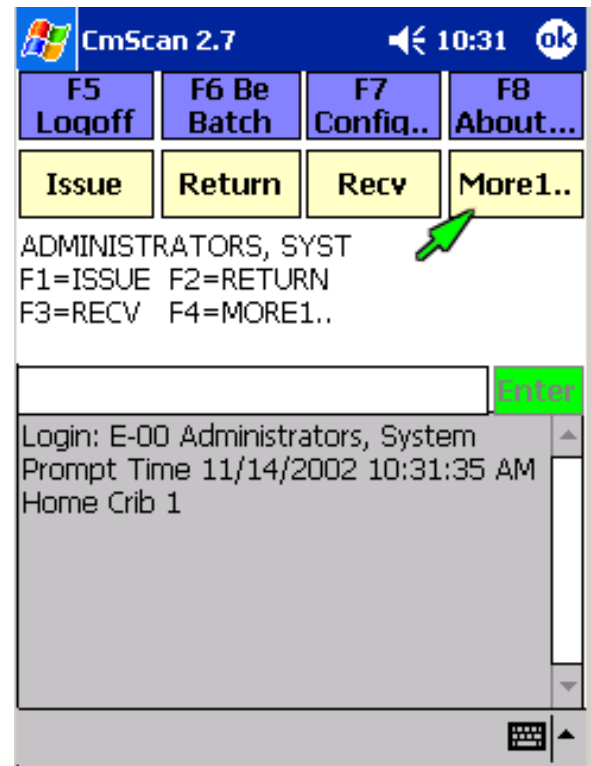

CribMaster Barcode Scanners

CribMaster RF Scanners enable you to issue items, return items, cycle count, receive, and even assemble kits from anywhere in your toolcrib. The CribMaster Scanners are wireless and will allow you to roam freely about your crib and log all of your activity in real time with CribMaster.

The CribMaster Batch Barcode Scanners allow you to work away from the toolcrib which makes keeping track of items in satellite bins easy and helps integrated supply managers keep track of their inventory.
