WINWARE HONORED AS BOEING SUPPLIER OF THE YEAR!

Marietta, GA, – WinWare was given a Boeing's premier supplier award for their commitment to excellence and customer satisfaction. Boeing saluted 13 partners at its third annual Suppliers of the Year awards ceremony in Seattle on March 31st.

"We are proud to be selected as Boeing supplier of the year, to say the least," states Larry Harper, WinWare president. "To know that all of our hard work and dedication to our customers is appreciated and recognized means a lot to our entire team." WinWare provides Boeing with Windows-based inventory management software, which uses radio frequency and barcodes to track Boeing tools valued at more than \$435 million.

"It takes great partners to help our team achieve new heights, and these suppliers are at the top of their class," said Jim Morris, vice president of Supplier Management for Boeing Commercial Airplanes and chair of the Boeing Supplier Management Process Council. "They embody the best of industry and the ideals we value in all of our supplier partners. Their innovation, integrity, agility and willingness to go above and beyond for our customers fuel the success of our entire Boeing team in today's highly competitive global market."

In 2003, WinWare demonstrated a high level of quality performance when it completed three releases of CribMaster software enhancements on schedule. The team's product support and customer service have been excellent throughout Boeing. WinWare successfully led implementation of its software at many Boeing sites; supported the implementation with training; and worked to ensure that the software was compatible with other Boeing applications, both local and companywide.

The 13 award winning Boeing Suppliers of the Year were selected from a field of more than 10,900 Boeing suppliers in more than 66 countries and approved through an exhaustive review process. The winning suppliers in each category were chosen on statistical measurements of quality, on-time delivery, post-delivery support and cost during the 12-month period preceding September 2003. They also were evaluated on their ability to anticipate and respond to changing customer requirements.

About the Company

WinWare Inc. was established in 1992 in Marietta, Ga., just outside Atlanta. Its knowledgeable and experienced staff is dedicated to creating enterprise-wide systems that manage tools and inventory in the manufacturing environment. WinWare has a long-term reputation for providing outstanding customer service and technical support for each of its customers, no matter how large or small.
