WINWARE'S RFID PRODUCTS TESTED AND VALIDATED BY MOTOROLA / SYMBOL

Marietta, GA – WinWare, Inc is proud to announce that our SymbolPLUS Validation with Motorola has successfully been achieved. This validation has created a differentiator for our company and 4 RFID products for indirect material management and asset tracking (Accu-Cab, Accu-Drawer, Accu-Port, and CM Scan) and has allowed us to remain a market leader. Not only has SymbolPLUS strengthened our partnership with Motorola, but it has also brought many new advantages to our company.

Motorola established this program to ensure that enterprise solutions work flawlessly with the product portfolio within a company. Only those products and software solutions that do work seamlessly with the product portfolio receive this validation. This validation has created an extra assurance that WinWare's Accu-Cab, Accu-Drawer, Accu-Port, and CM Scan, have been thoroughly tested as interoperable by Motorola's testing. This ensures customers and integrators can be confident in the technology.

From this great accomplishment, here at WinWare, we can provide our customers with an increased level of confidence in our products and services, efficient solution evaluations, and increased solution operations. We believe it is important for our customers to know the steps we have taken to go above and beyond to ensure WinWare products are stable and provide the promised value.

Since we thoroughly understand the importance of SymbolPLUS Validation, the promotion will be prominent for our customers to see. The validation logo, along with a link to SymbolPLUS will be on our website, as well as visible next to each product that received this achievement. It is important to us that our customers understand the importance behind this validation and the strength it brings to our RFID products, as we do here at WinWare, Inc.

"WinWare, Inc is extremely pleased with our latest achievement. We gain much satisfaction in knowing that our customer's assurance levels will not only continue to increase, but more importantly that we can continue to meet them," states Larry Harper, President of WinWare, Inc. "We look forward to an everlasting partnership and degree of confidence with Motorola and the SymbolPLUS Validation."

About the Company

WinWare Inc. was established in 1992 in Marietta, Ga., just outside Atlanta. Its knowledgeable and experienced staff is dedicated to creating enterprise-wide systems that manage tools and indirect material in the manufacturing environment. WinWare has a long-term reputation for providing outstanding customer service and technical support for each of its customers, no matter how large or small. The company is committed to providing expert software and hardware solutions for today's manufacturing inventory problems. Visit WinWare's Web site at www.CribMaster.com.
