WINWARE COLLABORATES WITH CHOCTAW RENEWABLE SERVICES UTILIZING CRIBMASTER AS A COMPONENT IN AN ADVANCED RFID MOBILE TOOL CONTROL SOLUTION

Marietta, GA – WinWare Inc., the global leader in providing solutions for managing indirect material, announces the partnership with Choctaw Renewable Services (CRS) utilizing CribMaster as an integral component in the WindBed, a one-of-a-kind, RFID mobile tool control solution. The WindBed is a fully-equipped, self-contained service vehicle designed for owners and contractors to enhance tool availability and accountability in the oil, gas, wind energy, manufacturing, mining, and power generation industries.

“We are extremely pleased to announce this partnership as one of the best-in-class providers in the CRS Alliance,” states Larry Harper, WinWare’s president. “To have been chosen to be the software provider as a component of this single-source solution validates the RFID technology used in the CribMaster inventory management system to accurately manage tooling, spare parts, or any indirect material in an array of industries,” adds Harper.

The CribMaster software contains the functionality needed to manage any type of indirect material. From tooling, spare parts inventory, PPE, MRO, etc., CribMaster is a robust and flexible inventory management application that was built by supporting the processes associated with this type of inventory. CribMaster currently has over 5000 customers in 13 countries and is the clear leader in providing technology to assist customers in reducing, tracking inventory movement, enhancing processes and developing more effective replenishment.

About WinWare
