

CRIBMASTER.

# Hosted Services

## **Reduce Cost and Complexity, While Maintaining Security for Your Most Critical Data**

Hosting and data security can often be complicated, expensive and overwhelming—but it doesn't have to be. CribMaster offers a simple, secure solution to the complexities of managing your company's most important data. That's because CribMaster's world-class Hosted Services team manages all the details for you, to ensure that your most critical data is safe and secure.

## **You Don't Have to Worry About Compliance**

In addition to meeting all GDPR and CCPA requirements, our data center and cloud environment are ISO 9001:2015 and ISO 27001 certified, meaning we meet the international standard for a quality management system. We're also SOC 2 Type 2 compliant, which means our best-in-class data center is fully equipped to store and transmit your data as securely as possible.

## **You'll Get Full Access to Your Data**

Our data center currently achieves greater than three-nines (99.9%) availability, ensuring a high level of operational performance, and giving you full access to all your data anywhere, anytime.

## **You Can Hand Maintenance Over to Us**

Our Hosted Services team provides the server hardware and software administration necessary to keep the environment running efficiently, smoothly and always highly available, so you can stay focused on running your business.

## **You'll Get Expert Support**

Our Professional Services team is available to help you with integrations, CribMaster software upgrades, database and data migrations, and more.

## **You Don't Need to Spend a Fortune**

You don't need to worry about spending money on servers, operating systems, application licenses, database software or any other upfront infrastructure costs. All you need is an Internet connection—we handle the rest.

## **For More Information**

To learn more about CribMaster's Hosted Services, talk to your Sales Rep or email [sales@cribmaster.com](mailto:sales@cribmaster.com)

## Frequently Asked Questions

### Do I need a security professional to manage compliance for my business?

Yes, it is highly recommended that there is a person or team in your organization that is responsible for concerns related to GDPR, CCPA, or other industry security compliances.

### What is the cost of hosting?

Each connection, whether it's a database, main machine, or admin license, has an annual fee. Check with your Sales Rep for information on pricing.

### Will updates be made automatically if my database is hosted by CribMaster?

No, as this could potentially cause a work stoppage. Updates are always coordinated with you upon your request.

### If CribMaster hosts my database, can CribMaster diagnose problems remotely?

Yes, our Technical Support team supports this function with your request and permission.

### Does CribMaster Hosted Services assist our business with keeping its service and hosted applications aligned with our industry security compliances and policy requirements?

Yes, businesses operate in different industries that may have very complex industry security compliances and internal IT policies, so our staff is available to make your implementation secure.

### Can Hosted Services accommodate custom integrations, special configuration hardening policies, and changing business requirements?

Yes, our Integrations and Hosted Services teams are dedicated to providing a solution that works for you and your unique business. Ask your Sales Rep for more information.
